

CPE/Training

Training for New Clients

AdvanceCPA offers hands-on, onsite training on our audit methodology which meets NASBA standards for CPE. We'll take your audit team through the system step-by-step and show them how it gets done from start to finish. Seminars are conducted by trainers with practical, hands-on auditing experience in our systems and Smart Audit Intelligence methodology.

The AdvanceCPA LearningLinks website is an intelligent tool that helps you manage your career development. LearningLinks will help you identify available courses, plan and track your learning for the year, register for classes, launch online self-studies and web conferences and monitor your CPE credit. There are over 400 hours of courses to choose from ranging from compliance to emerging issues in the industry.

Ongoing Training Opportunities

AdvanceCPA offers hundreds of hours of CPE via seminars, self-studies and our extremely effective – but cost efficient – webcasts. NASBA approved CPE classes relate to the tools you use every day and cover everything from general subjects such as accounting updates to specific programs such as student financial aid.

Advance your learning.
Tap into superior CPE programs from AdvanceCPA.
