

Smart Audit Intelligence

Advance your firm by focusing on the risks, not the forms.

AdvanceCPA's Smart Audit Intelligence uses methodology developed by McGladrey & Pullen, a leading CPA firm in the U.S. Auditors at McGladrey & Pullen and hundreds of other CPA firms use the methodology on a daily basis. It guides auditors through the risk assessment process and lays out an audit plan that addresses the new risk standards with precise steps applicable to the individual client. The result: an audit

that is efficient, effective and completely compliant.

Smart Audit Intelligence is fully integrated into the McGladrey Audit Performance System. Plus, it's compatible with any paperless system through the McGladrey Program Generator.

Even if you're not ready for paperless, we can get you started. You'll get smart audit intelligence – in a paper environment.

Make your audits more efficient and effective. Connect with Intelligent Tools from AdvanceCPA.
